Re: *Advanced Television Systems and Their Impact upon the Existing
Television Service, Seventh Report & Order ("7th R&O")*, FCC 06-150,
MB Docket No. 87-268

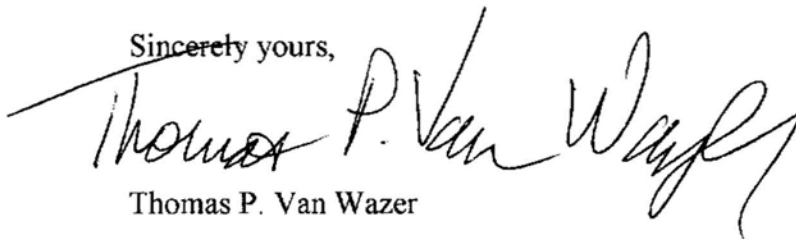

Dear Ms. Dortch:

On Thursday, October 4, 2007, Andy Bater of Tribune Broadcasting Company ("Tribune") and the undersigned met with the following Commission personnel: Eloise Gore, Clay Pendarvis, Nazifa Sawez, Gordon Godfrey, Maureen McCarthy, John Gabrysch, Kevin Harding, Evan Baranoff and Shaun Maher (via telephone).

Among other things, the parties discussed the mis-match between the assigned, theoretical channel 13 antenna pattern for KCPQ-DT, Tacoma, Washington in the 7th R&O and Appendix B and KCPQ's actual analog channel 13 antenna pattern that Tribune intends to use for KCPQ-DT's post-transition operation. The power level reduction required to keep KCPQ-DT's post-transition operation using its actual antenna pattern inside its allotted, theoretical 7th R&O pattern, and the corresponding loss in service population, were also discussed. The parties also discussed a possible filing by Tribune to change KCPQ-DT's Form 381 certified service area from its maximized DTV facility on channel 18 to its replicated analog facility on channel 13.

As required by the FCC's rules, one copy of this letter is being filed electronically in the above-referenced docket. Please direct any questions regarding this matter to the undersigned.

Sincerely yours,

Thomas P. Van Wazer

Ms. Marlene H. Dortch
